

JOB POSTING

Construction Project Coordinator (Owner's Representative) – Kapuskasing

Hydromega Services is searching for an engineer or an experienced technician to fill a position as construction project coordinator. This individual will be responsible for monitoring and/or coordinating all activities and field work on the construction sites of four hydroelectric power stations on the Kapuskasing River. As the representative of Hydromega's interests during the construction period, the coordinator will participate in the activities of the civil and high voltage electrical engineering contractors, as well as those of the turbine manufacturer, who are all under turnkey contracts. Under the direction of the construction project director, the coordinator will manage the daily issues involved during the construction and ensure that all relevant information is recorded.

Skills and Qualifications

- Engineer, member of The Professional Engineers Ontario (PEO), or technician, preferably in civil engineering;
- More than 5 years experience in supervision of civil engineering construction projects, mostly in the field of electricity generation;
- Proficiency in computer software applicable to the discipline and the responsibilities involved;
- Bilingualism: English to French;
- Great autonomy and leadership;
- Effective oral and written communication skills;
- Ability to work with a team and to meet deadlines.

Employment Conditions

A competitive salary and employee benefits will be offered to the suitable candidate. This position will be located in Kapuskasing and must be filled immediately.

Candidates who wish to apply may do so by sending their curriculum vitae, along with an introduction letter, to the following e-mail address: svrhconseil@videotron.ca
